

CRITERIA FOR ADJUNCT FACULTY (revised 4/23)

1. ALL ADJUNCT FACULTY MUST TEACH IN THEIR OWN PRIVATE OFFICE SETTING. THAT FACILITY MUST HAVE...
 - a. AV capability to show slides (simply a color .pdf file cast to a TV) to a group of 3-5 people. This can be a break room or a private waiting room that is not otherwise in use.
 - b. Exam rooms large enough so that the instructor, patient and all attendees can watch each treatment.
2. MD or DO degree with active medical license in the state where the class will be taught. An experienced assistant NP or PA-C may also be used for hands-on instruction, but MD must be present for the review and Q&A.
3. Active Medmal coverage for all services being taught that day.
4. Must be proficient in Botox and Dermal Fillers at a minimum. Also being proficient in Cosmetic Sclerotherapy of the Legs, PDO Threads, and/or Cosmetic PRP Facelift and Facial is a bonus.
5. Must provide bio and photo to appear on the PracticalCME.com website
6. BOTOX/FILLERS PROFICIENCY (Required)
 - a. 3 Years or More experience with Cosmetic Botox
 - b. 3 Years or More experience with Hyaluronic Acid Dermal Fillers and at least 50 patients treated.
 - c. Preference given to physicians who have already taken the PCME training course in Botox/Fillers
 - d. Provide at least 20 units of authentic, US-sourced, Botox and a 1cc syringe of Juvederm XC Ultra for each paid, qualified attendee to practice on his/her model patient. You must pay for this at your own expense or obtain from your Allergan rep if they are willing to support your class. Only MD, DO, DDS, DMD, NP, PA, or RN may be do hands-on at your site.
7. SCLEROTHERAPY PROFICIENCY (if applicable)
 - a. Proficient in flat needle injection technique for spider and reticular veins.

- b. Proficient in transillumination (Veinlite or Veinlite LED) for reticular veins
 - c. Proficient in using STS or POL Foam
8. COSMETIC PRP PROFICIENCY (If applicable)
- a. Have an FDA-Approved isolation device in your office. ProGen PRP (formerly Eclipse), or Emcyte are preferred.
 - i. *A vacutainer tube and standard lab centrifuge is NOT FDA-approved*
 - ii. Spin patient blood for one patient for every 2 attendees.
 - b. Perform microneedling though plasma (PRP Facial) using an FDA-cleared Pen.
 - c. Be skilled in mixing PRP with fresh HA-filler placement (PRP Facelift)
9. MODEL PATIENTS
- a. We encourage our attendees to bring their own model patients (typically friends, staff, relatives). This allows the attendee to follow the progress of their patient over time.
 - b. You may provide model patients for any attendee who does not have a patient. You are not required to do so. You may charge the model patient a small fee. You must establish a doctor-patient relationship with any model patient you provide and offer follow-up as needed.
10. COMPENSATION
- a. Compensation is 60% of gross receipts for that particular event. Remember, you will have no expenses with regard to CME accreditation, advertising, or payment processing with the attendee. Typical tuition for BTX/Filler FAST TRACK (half day live) is \$2295. Sclerotherapy is \$1695 (plus \$395 for extended hands-on). PRP is \$1995.
 - i. 4 BTX/Filler attendees would result in a compensation to you for \$5508 for ½ day of work in your own office.
 - b. PDO Threads is compensated at \$1,400 per case performed one-on-one with an attendee. Threads are provided by manufacturer.

If you wish to be considered, please submit an email to MD@PRACTICALCME.COM with your CV, and experience level with Botox, Dermal Fillers, Sclerotherapy, PDO Threads, and Cosmetic PRP
